# CRUISER

The Cleanco Cruiser offers a patented heat exchange system utilizing the heat of the Sutorbilt Tri-Lobe Vacuum Blower and the 25 HP Kohler Liquid Cooled Engine. This system provides maximum heat while eliminating the need to bypass water to the Waste Tank.

## STANDARD FEATURES

- 60 Gallon Waste Tank with stainless steel filter and lint basket
- Carpet Wand
- 100 feet of 2" Vacuum Hose
- 100 feet of 1/4" High Pressure Solution Hose with fittings
- Pre-wired for optional waste water pump out system
- Operation and Service Manual

## ADDITIONAL FEATURES

- Waste Tank with auto shut off indicator light
- High temperature engine shutdown indicator
- Circuit breakers to protect from electrical spikes and overloads
- Last step chemical injection
